Which project will you be completing?

I'll do the Build your own NAS with OpenMediaVault project.

Why have you chosen this project?

Even thought changing my major to the CIS has been a challenge, I have some knowledge about the OpenMediaVault and It will be challenging and fun at the same time to work with this.

What are the possible problems, roadblocks, or difficulties you anticipate during the process of completing the project?

Well, I do not know exactly what kind of problem I'm going to have but I will make sure to watch videos and read about to get the best result as I can.

How are you planning to overcome these difficulties?

I will overcome the difficult by asking for help, taking notes for what i learn and watch from the internet.

How do you think completing this project will help you in your career?

Well, completing this will be a challenging but also i'll be very proud of myself and after that i could help some other friends to learn and use the OpenMEdiaVault. This will help me in some ways if i decide to start looking for a job in the IT field.
